I . Company Overview

Salutatory

MIRIS Co., Ltd. is running successfully to become one of top IT service company in Korea. Since its founding in 2006, MIRIS has been providing the highest level of IT services in the public, finance, telecommunications and manufacturing sectors. Though our supreme efforts on the service, we not only satisfy our costumers but guarantee their success as well.

MIRIS Co., Ltd. which celebrated its 15th anniversary, endeavors to expand its business to diverse fields, including IT / ICT technologies such as AI, Big date, IoT, and cloud service. In addition, we will continue to discover and develop a wide range of convergences between IT technology and existing industries.

In the big flow of smart revolution, IT is deeply related to industrial innovation and development. At this time of change, MIRIS will continue to invest heavily and make efforts to secure its own solutions and technology capabilities that lead the smart industry, and to lead the change of IT Industry in world. To achieve the success, all members of MIRIS will work on the basis of creativity and innovation.

Our members promise to pursue new challenges and constant innovation by putting the customer's value first.

Thank you.
