5 ACADEMIC LIFE AT EWHA

These suggestions and explanations are provided to help students become familiar with the Korean academic environment. If you have any questions, do not hesitate to approach fellow students, academic advisors, teaching assistants, professors, or staff members in the International Student Affairs Team (ISAT).

1) Tips for Academic Success

A. Choose Your Courses Wisely

- ① Choose a combination of more and less demanding courses. Check to see how many papers and exams are required. Have a clear understanding of the reading assignments in a course. For this information, you can refer to the course syllabus or ask senior students.
- ② Search for 강의시간표/강의계획안 under the menu of 학사안내 at Ewha website and ask your peers for the recommendation of each course.
- ③ Taking too many courses may result in feelings of discouragement and poor academic performance.
- ④ Requirements and requisite courses before graduation are all different depending on the majors and admission types. Check course schedule and notice from Ewha carefully.
- ⑤ Visit the corresponding department office or website to better understand the academic curriculum policies and graduation requirements for individual department or major.
(Look for Appendix 7 for contact information of your department office)

B. Talk with Instructors

- ① Ask for clarification or help from the professor right after a lecture whenever necessary. You need to understand the course content and all the instructions clearly.
- ② If you have any concerns, ask your academic advisor or a counselor at the counseling center. When you have any problem, it is important to consult with the people around you and make an effort to solve it.

2) What is Expected in an Ewha Classroom

A. Active Participation by Students

- ① Some courses have sessions devoted to class discussion. Being silent in the discussions can be interpreted as having no interest or being unprepared for class.
- ② Some courses have team projects for assignments. Being able to work as a team is one of the key elements of school life. Devote your time, communicate with your peers and commit to the assignments.

B. Taking Responsibility and Being Self-Motivated

- ① Attendance is always important for a student. If you are absent more than a third of the class, you will receive an F grade (failure).
- ② Contents not only those covered in the lecture, but also the extra materials, such as supplementary textbooks and additional readings, may be on the exams. Always be prepared and search for necessary materials that are relevant to the lecture on your own. You should make a habit of self-directed learning.
- ③ In some courses, students will do most of the work as a team and this work will contribute to a significant part of their grade.

3) Academic Honesty & Plagiarism

A. Academic Honesty

- ① Academic dishonesty will cause serious consequences in school life.
- ② Dishonest conduct including cheating and plagiarism will cause deducted marks for the exams and assignments, and even an F grade (failure).
- ③ Academic dishonesty may be listed on the student record and subject to disciplinary action such as suspension or expulsion.
- ④ Proxy attendance could lead to suspension or expulsion.

B. Plagiarism

- ① Plagiarism refers to using others' words and/or ideas as your own.
- ② When using someone else's words and/or ideas, you must accurately cite the source.
- ③ Even if it is not a word-for-word transcription of someone else's work, it is considered plagiarism if used without giving credit.

 - Mostly a clear air layer is under a smoke layer.
 - Crawl on your hands and knees when you move a place with a full of smoke. Do not let your abdomen touch the floor.
 - Use a wet towel to cover your nose and lips to protect your lung from inhaling toxic gas.
 - If your clothing catches on fire, cover your eyes and mouth with both hands and then roll on the floor.

B. Reporting a Fire

- Press the fire alarm and immediately report the incident to the fire station.
- Dial 02-3277-5000 (on Ewha Campus) or 119 calmly. Report the fire.
- Calmly describe the details of the fire: location, building, etc. (e.g. "A fire broke out in ECC B333.")
- Hold the line until the fire department acknowledges the report.
- Emergency calls (119, 112, etc.) are available for free at public phones by pressing the red Emergency Call button.

3) Fire Prevention

A. In Buildings and On Campus

- Smoking is strictly prohibited on campus. If you smoke, you will be fined up to 100,000 KRW.
- Be careful and follow the guidelines when disposing of flammable liquids (e.g. alcohol, gasoline) or flammable gases (e.g. butane).
- Do not leave electrical wires and cables hanging or lying in places that are difficult to see. (e.g. under carpets and behind wardrobes)

B. In Dormitories

- Unplug all electrical devices after use and before exiting the room.
- Do not use multiple plug connectors and do not insert multiple plugs into a single electrical outlet.
- Use only cords meeting the specifications for electrical capacity and voltage of each electrical device.
- Be aware of balcony emergency exits or partitions leading to neighbors and be sure not to obstruct these exits and passages with furniture or other objects.
- If the evacuation stairs are filled with smoke, escape from the smoke and get fresh air via balconies or windows.

C. In Laboratories

- Ensure unobstructed access to all exits, fire extinguishers, electrical panels, emergency showers, and eyewashes.
- If leaving a lab unattended, turn off all ignition sources and lock the doors.
- Do not store heavy items above table height. Overhead storage of supplies on top of cabinets should be limited to lightweight items. Also, remember that a 36" diameter area around all fire sprinkler heads must be kept clear at all times.
- Spills should be cleaned up immediately.

- Avoid using extension cords. If you must use one, obtain a heavy-duty extension cord that is electrically grounded, with its own fuse, and install it safely. Extension cords should not go under doors, across aisles, hang from the ceiling, or be plugged into other extension cords.
- Participate in fire drills on a regular basis and be fully aware of safe evacuation routes during a fire.
- If an electrical device is not functioning properly or if you notice a strange smell from the device, immediately unplug and ask an expert to examine it.
- If an electrical cord is partially damaged or the coating is stripped, replace it.
- Protect cords that are extended to the floor or the wall from damage and use only cords that meet the specified electrical capacity.
- Do not place electric heaters near the wall or around combustible materials.
- Designate someone to be responsible for unplugging electrical devices in use when leaving the office and examining them on a daily basis.
